SUMMARY

Data Analyst with 4.5+ years of experience transforming raw, messy enterprise datasets into actionable executive insights. Proficient in advanced SQL, Power BI (DAX), Tableau, Python (Pandas/NumPy), statistical modeling, cohort retention analysis, and A/B test validation.

ANALYTICAL TOOLKIT

BI & Reporting	Querying & ETL	Languages	Statistics
Power BI (DAX), Tableau, Metabase	Advanced SQL, Snowflake, BigQuery, dbt	Python (Pandas, Seaborn), R, Excel VBA	A/B Testing, Regression, Churn Analysis

PROFESSIONAL EXPERIENCE

Lead Data Analyst • **Mu Sigma Inc.** — Oct 2021 – Present | Chennai

- Designed automated executive Power BI dashboards with complex DAX measures, serving 40+ C-suite decision-makers.
- Conducted user churn analysis utilizing logistic regression in Python, identifying key retention drivers and saving $1.4M ARR.
- Built robust dbt data transformation models on Snowflake to standardize customer transaction tracking across 12 countries.

Business Intelligence Analyst • **Ford Business Solutions** — Jun 2019 – Sep 2021 | Chennai / Erode

- Automated weekly manufacturing warranty reporting in Tableau, saving 15 manual engineering hours each sprint.
- Formulated SQL stored procedures and automated window functions to detect supply chain inventory discrepancies.
- Designed statistical experiments for marketing attribution, measuring incrementality across digital channels.

IMPACT CASE STUDIES

Customer Lifetime Value (LTV) Prediction & Cohort Modeling
Modeled behavioral segmentations across 850k e-commerce shoppers in Python, lifting targeted campaign conversion rates by 22%.

Real-Time Fleet Telemetry KPI Dashboard
Created interactive Tableau operational dashboards tracking vehicle downtime trends, accelerating fleet maintenance response times by 35%.

EDUCATION & CERTIFICATION

B.Tech Production Engineering • PSG College of Technology, Coimbatore

Microsoft Certified: Power BI Data Analyst Associate (PL-300)
