PROFESSIONAL SUMMARY

Senior Database Developer & Performance Engineer with 6+ years of experience specializing in complex SQL optimization, stored procedures (PL/SQL, T-SQL), schema design, ETL pipeline development, and high-availability database cluster replication across PostgreSQL, Oracle, and MS SQL Server.

DATABASE COMPETENCIES

RDBMS	Querying & Logic	ETL & Big Data	Optimization
PostgreSQL, Oracle, SQL Server, MySQL	PL/SQL, T-SQL, Stored Procs, CTEs, Windowing	SSIS, Talend, Apache Airflow, Snowflake	Execution Plans, Indexing, Partitioning, Vacuum

PROFESSIONAL EXPERIENCE

Lead Database Specialist • **Wipro Digital**
Mar 2021 – Present | Chennai

- Optimized long-running analytical queries across 8TB PostgreSQL databases, cutting reporting runtimes by 78%.
- Architected automated partition pruning, b-tree/GIN index maintenance, and connection pooling with PgBouncer.
- Implemented multi-master replication and active-standby disaster recovery with automated failover via Patroni.

Database Developer (SQL/ETL) • **Syntel Telecom**
Jun 2018 – Feb 2021 | Tirunelveli / Chennai

- Wrote complex PL/SQL packages, triggers, and scheduled jobs processing 350,000 billing call logs daily.
- Designed SSIS workflows transferring transactional customer logs to analytical staging tables.
- Conducted index usage audits, eliminating deadlocks and reducing tempdb pressure.

FEATURED IMPLEMENTATIONS

Enterprise Data Warehouse Migration (On-Prem to Snowflake)
Authored ETL transformation scripts converting 400+ Oracle stored procedures into Snowflake-compatible SQL, maintaining zero data loss across 15M records.

High-Concurrency Financial Ledger Partitioning Strategy
Implemented table range-hash partitioning strategies across audit log tables, reducing write contention by 60% during peak billing cycles.

EDUCATION & CREDENTIALS

B.Tech Computer Science • Government College of Engineering, Tirunelveli

Oracle Database PL/SQL Developer Certified Associate • AWS Database Specialty
