PROFILE SUMMARY

DevOps & Cloud Engineer with 5+ years building immutable multi-region cloud infrastructures on AWS and GCP. Extensive background in Kubernetes orchestration, GitOps automation (ArgoCD), Terraform Infrastructure-as-Code, and Prometheus/Grafana observability pipelines.

CORE TECHNICAL STACK

Cloud & Orchestration
AWS (EKS, ECS, IAM, VPC, S3), GCP (GKE), Kubernetes, Docker, Helm

CI/CD & Infrastructure as Code
Terraform, Ansible, ArgoCD, GitHub Actions, GitLab CI, Jenkins

Monitoring & Security
Prometheus, Grafana, Datadog, ELK Stack, HashiCorp Vault, SonarQube

Scripting & Networking
Python, Bash, Linux Kernel tuning, Nginx Ingress, Cloudflare, TLS/mTLS

PROFESSIONAL EXPERIENCE

Senior DevOps Engineer • Redington India — **Aug 2021 – Present | Chennai / Salem**

- Designed highly available multi-tenant AWS EKS clusters hosting 120+ microservices with spot-instance auto-scaling.
- Automated complete cloud provisioning using modular Terraform scripts, slashing environment spin-up time by 75%.
- Implemented GitOps deployments using ArgoCD, achieving zero-downtime Canary and Blue-Green release workflows.
- Reduced cloud infrastructure expenditure by 34% through automated rightsizing and AWS savings plans.

Cloud Systems Engineer • CSS Corp — **Jul 2019 – Jul 2021 | Chennai**

- Constructed resilient CI/CD pipelines via GitHub Actions and Docker, reducing build times from 35 to 8 minutes.
- Deployed distributed logging and alerting with ELK and Prometheus, achieving 99.98% platform service SLA.
- Automated system patching and compliance audits across 300+ Ubuntu and CentOS EC2 servers using Ansible.

KEY TECHNICAL PROJECTS

Automated Zero-Trust GitOps Delivery Pipeline
Configured ArgoCD and Vault to dynamically inject short-lived database secrets during Kubernetes pod launches, eliminating hardcoded credentials.

Multi-Region Disaster Recovery Automation
Built an automated cross-region AWS failover system using Route 53 latency routing and asynchronous Aurora global databases.

EDUCATION & CERTIFICATIONS

B.E. Electronics & Communication • Government College of Engineering, Salem

CKA (Certified Kubernetes Administrator) • AWS Solutions Architect Associate
